

# CoreEXP™ 3.0

## Our Best Yet

### Prevents Stalling

Innovative EXP disk design incorporates updated wedge weights to prevent your machine from clutch related stalls.

### Higher Durability

Improved design reduces friction and heat build-up so your components last longer.

### Power to the Ground

A properly set up Core EXP delivers constant power without slip, providing high performance and traction control exclusive to the Auto-Clutch.

### Better Lever Feel

Capable of manual override at all times with a lever that feels just like stock, but won't be subject to clutch fade like traditional clutches.

---

## TECHNOLOGICALLY ADVANCED

# 3.0 PRESSURE PLATE

Unprecedented Benefits

### Lighter

Up to 27% lighter creates less rotating mass.

### Increases Clutch Life

Most innovative pressure plate design ever. Dramatically increases oil flow and cooling.

## **INNOVATIVE** **3.0 CENTER CLUTCH HUB**

Designed for Performance

### **Lighter**

Up to 20% lighter creates less rotating mass.

### **Increases Clutch Life and Helps Reduce Fade**

Dramatically increases oil flow to create cooler operating temperatures, reducing clutch fade and providing higher durability.

---

## **PRECISION STEEL** **DRIVE PLATES** Our Best Ever

**Provides Consistent Modulation and Power Delivery**  
Durable new tooth profile creates smoother, more controlled and consistent clutch modulation while helping deliver full power to ground.
