

Fork Seals

Reduced friction, improved reliability and superior sealing performance

SKF Seal Kits consist of one oil seal and wiper made of self-lubricating compounds developed to achieve superior sealing performance.

Benefits

- Superior sealing performance
- Self-lubricating compound
- Reduces friction by 20% over standard seals
- Increased seal life
- Compatible with a wide range of (OEM) oils
- Improved performance
- Withstands extreme conditions
- Maintain low and consistent friction
- Reduced wear and air suction
